*We can not do great things on this earth,
We can only do small things with great love.*

Mother Teresa

FURNITURE

F 001 Portable Massage Bed

Anatomy of Portable Massage Bed

A - Swivel Side Wheels
We equip the bed with four swivel side wheels to easily open and move around. The wheels do not get in the way of the therapist.

B - Recessed Legs
We provide a full 60 cm leg recess at both ends of bed. The legs are adjustable from 62 cm to 72 cm.

C - Cable Suspension
Cables are a light-weight load-bearing suspension system which maximizes the strength of the bed.

D - Solid End-Braces
Our braces panel are glued and screwed. They do not come loose because they are integral part of the leg. Your hand carved company's logo can be fitted on the braces.

E - Face Cradle Holes on Both Ends
All our beds include hole on both ends for face support or optional feet extension.

F - Face Cradle
Maximum comfort and steadiness, Cushion adjustable to the face.

Lock System
Antique style and strong lock system.

Handles
Our attractive handles are quiet, comfortable, durable, and never get in the way.

Leg Block Design
Our one piece hardwood leg corner blocks improve the load bearing capacity of the leg by transferring the weight directly to the frame.

Woods
Our structural components are all furniture grade hardwoods. We use recycled Teak wood and Agathis wood for optimal strength and light weight.

Upholstery
We pay meticulous attention to detail and craftsmanship. Our sewn corners fit like a glove. We offer a large selection

Optional
b- Front Arm Rest Extension
c- Feet Rest Extension
e- Hand Carved Logo
