

*Dreams come true without that possibility,
nature would not incite us to have them.*

John Updike

Swan Neck Vitality

Vitality Pool

Vitality Pools use prefabricated resistive therapy walkways, seats, work out walls, work out stations and beds. All are installed with independent pumps. A treatment usually takes 45 minutes. The water temperature is around 27c with a depth of 1200mm. Calorie “burn out” is assured, as a circuit is equivalent to running a marathon, yet the client feels elated with a real improvement in Wellness and energy levels.

Hydrotherapy treatment units
BIO Tech Energized water
Recommended depth 115 cm
